

Maptician Flex™

Reopen Your Office with Confidence

Maptician Flex Features

Maptician Flex offers features designed to help organizations reopen their locations safely, and to operate them efficiently in a Post-COVID-19 environment.

Social Distancing Analysis

Interactive social distancing tools provide instant visualizations and highlight social distancing proximity risks

Flexible Work Schedules

Flex Scheduling allows groups of employees to have varying daily or weekly schedules to reduce office density. Flex scheduling also allows for staggered arrival and/or departure times

Potential Contact Tracing

If an employee reports as COVID-19 positive, contact tracing will automatically identify individuals who may have been in proximity to this person

COVID-19 Pre-screen Surveys are also available as an add-on for Maptician Flex.
